

Hamsey Churchyard Maintenance

Due to the rising costs of professional maintenance, we are restricted to five complete mowing/strimings a year (wilding areas excepted- we will manage these). These will happen from March to September. There are set dates for company to trim, but all are weather dependent. Past practice has shown that it is better to leave the arisings from the professional cut for at least a week before raking, this makes collection much easier.

Outside of these professional cuts we will have Volunteer Days. If you are interested, please come with work tools and sacks to remove what you clear as there is no disposal point on site.

Please be conscious of the many slip and trip hazards when working in the area and take appropriate care.

Bring any refreshments you may require.

Date all Saturdays	Time 10.00- 12.00	Jobs to do
19 th March		Mark out wilding area in New churchyard - general maintenance
2 nd April		Strimming and general clear New Churchyard
30 th April		Strimming and general clear Old Churchyard
11 th June		Strimming and general clear Old and New Churchyard
16 th July		Strimming and general clear Old and New Churchyard
13 th August		Strimming and general clear Old and New Churchyard
10 th September		Clear up and remove grass from both Churchyards
